MEMORANDUM FOR:

[Redacted]

Chairman, TSCS

SUBJECT : "The Science of Electronic Surveillance"

1. The recent book, "The Science of Electronic Surveillance" by John S. VanDewerker, was discussed at the March meeting of the Research and Development Subcommittee. It was the consensus of the R&D Subcommittee that a short damage assessment should be prepared to provide some official assessment of the damage to our security interests that may have been caused by this publication.

2. Since damage assessments appear to be a more appropriate task for your Subcommittee than for the R&D Subcommittee, I would like to suggest that your Subcommittee undertake this task. We will be happy to provide any assistance that you may need in performing this damage assessment.
